

BEHIND THE DEAL

QTS Data Centers

\$10 billion privatization of the largest and fastest-growing data center company in the world

Northern Virginia

Note: All figures as of December 31, 2024, unless otherwise indicated, and shown at 100% ownership. BREIT's ownership interest at acquisition was 33% (\$3.2 billion purchase price at share). "Largest and fastest-growing" reflects Blackstone Proprietary Data as of December 31, 2024 and datacenterHawk, as of December 31, 2024. "Largest" refers to leased megawatts; and "fastest-growing" refers to numerical growth in leased megawatts since Q4 2019 of QTS relative to a peer set of the largest data center companies in the world. A copy of the source materials of such data will be provided upon request. **This is neither an offer to sell nor a solicitation of an offer to buy the securities described herein, and must be read in conjunction with the prospectus in order to understand fully all of the implications and risks of the offering to which this sales and advertising literature relates. A copy of the prospectus must be made available to you in connection with this offering, and is available at www.breit.com/prospectus.** The properties and images referenced herein do not represent all BREIT investments. It should not be assumed that BREIT's investment in the properties identified and discussed herein were or will be profitable. Please refer to www.breit.com/properties for a complete list of real estate investments (excluding equity in public and private real estate-related companies), including BREIT's ownership interest in such investments. 1. QTS has committed to sourcing 100% carbon-free power for customers who opt into Green Power Program; includes procurement of renewable power and acquiring Renewable Energy Credits (RECs) in addition to grid-delivered carbon free energy. Today is as of December 31, 2023.
2. Water-free cooling design can be described as data center cooling equipment, that once operational, does not withdraw, consume, or discharge water while cooling the data center. QTS freedom design assets only use water for typical office uses (e.g., sinks, restrooms). Percent of portfolio that is water-free is measured as a percentage of total QTS contractual leasing (operational facilities + assets under development) as of December 31, 2024.

Important Disclosure Information

Summary of Risk Factors

BREIT is a non-listed REIT that invests primarily in stabilized income-generating commercial real estate investments across asset classes in the United States ("U.S.") and, to a lesser extent, real estate debt investments, with a focus on current income. We invest to a lesser extent in countries outside of the U.S. This investment involves a high degree of risk. You should purchase these securities only if you can afford the complete loss of your investment. You should read the prospectus carefully for a description of the risks associated with an investment in BREIT. These risks include, but are not limited to, the following:

- Since there is no public trading market for shares of our common stock, repurchase of shares by us is generally the only way to dispose of your shares. Our share repurchase plan, which is approved and administered by our board of directors, provides our stockholders with the opportunity to request that we repurchase their shares on a monthly basis, but we are not obligated to repurchase any shares, and our board of directors may determine to repurchase only some, or even none, of the shares that have been requested to be repurchased in any particular month in its discretion. In addition, repurchases will be subject to available liquidity and other significant restrictions, including repurchase limitations that have in the past been, and may in the future be, exceeded, resulting in our repurchase of shares on a pro rata basis. Further, our board of directors has in the past made exceptions to the limitations in our share repurchase plan and may in the future, in certain circumstances, make exceptions to such repurchase limitations (or repurchase fewer shares than such repurchase limitations), or modify or suspend our share repurchase plan if, in its reasonable judgment, it deems such action to be in our best interest and the best interest of our stockholders, such as when repurchase requests would place an undue burden on our liquidity, adversely affect our operations or impose an adverse impact on us that would outweigh the benefit of repurchasing shares submitted for repurchase. Our board of directors cannot terminate our share repurchase plan absent a liquidity event which results in our stockholders receiving cash or securities listed on a national securities exchange or where otherwise required by law. As a result, our shares should be considered as having only limited liquidity and at times may be illiquid.
- Distributions are not guaranteed and may be funded from sources other than cash flow from operations, including, without limitation, borrowings, the sale of our assets, repayments of our real estate debt investments, return of capital or offering proceeds, and advances or the deferral of fees and expenses. We have no limits on the amounts we may fund from such sources.
- The purchase and repurchase price for shares of our common stock are generally based on our prior month's net asset value ("NAV") and are not based on any public trading market. While there will be annual appraisals of our properties performed by independent third-party appraisal firms, the valuation of properties is inherently subjective, and our NAV may not accurately reflect the actual price at which our properties could be liquidated on any given day.
- We are dependent on BX REIT Advisors L.L.C. (the "Adviser") to conduct our operations, as well as the persons and firms the Adviser retains to provide services on our behalf. The Adviser will face conflicts of interest as a result of, among other things, the allocation of investment opportunities among us and Other Blackstone Accounts (as defined in BREIT's prospectus), the allocation of time of its investment professionals and the substantial fees that we will pay to the Adviser.
- Principal and interest payments on any of our outstanding borrowings will reduce the amount of funds available for distribution or investment in additional real estate assets.
- There are limits on the ownership and transferability of our shares.
- We do not own the Blackstone name, but we are permitted to use it as part of our corporate name pursuant to a trademark license agreement with an affiliate of Blackstone Inc. ("Blackstone"). Use of the name by other parties or the termination of our trademark license agreement may harm our business.
- We intend to continue to qualify as a REIT for U.S. federal income tax purposes. However, if we fail to qualify as a REIT and no relief provisions apply, our NAV and cash available for distribution to our stockholders could materially decrease.
- The acquisition of investment properties may be financed in substantial part by borrowing, which increases our exposure to loss. The use of leverage involves a high degree of financial risk and will increase the exposure of our investments to adverse economic factors such as rising interest rates, downturns in the economy or deteriorations in the condition of our investments.
- Investing in commercial real estate assets involves certain risks, including but not limited to: tenants' inability to pay rent; increases in interest rates and lack of availability of financing; tenant turnover and vacancies; and changes in supply of or demand for similar properties in a given market.
- Recent concerns about the real estate market, increases in interest rates, rising inflation, energy costs and geopolitical issues have contributed to increased volatility and diminished expectations for the economy and market going forward. Our operating results will be affected by global and national economic and market conditions generally and by the local economic conditions where our properties are located, including changes with respect to rising vacancy rates or decreasing market rental rates; inability to lease space on favorable terms; bankruptcies, financial difficulties or lease defaults by our tenants, particularly for our tenants with net leases for large properties; rising inflation, increases in interest rates and supply chain disruptions; market volatility and changes in government rules, regulations and fiscal policies, such as property taxes, zoning laws, limitations on rental rates, and compliance costs with respect to environmental laws.
- Our portfolio is currently concentrated in certain industries and geographies, and, as a consequence, our aggregate return may be substantially affected by adverse economic or business conditions affecting that particular type of asset or geography.
- Competition for investment opportunities may reduce our profitability and the return on your investment.
- Local, regional, or global events such as war (e.g., Russia/Ukraine), acts of terrorism, public health issues like pandemics or epidemics (e.g., COVID-19), recessions, or other economic, political and global macro factors and events could lead to a substantial economic downturn or recession in the U.S. and global economies and have a significant impact on BREIT and its investments. The recovery from such downturns is uncertain and may last for an extended period of time or result in significant volatility, and many of the risks discussed herein associated with an investment in BREIT may be increased.

The properties, sectors and geographies referenced herein do not represent all BREIT investments. The selected investment examples presented or referred to herein may not be representative of all transactions of a given type or of

investments generally and are intended to be illustrative of the types of investments that have been made or may be made by BREIT in employing its investment strategies. Forward-Looking Statement Disclosure

This material contains forward-looking statements within the meaning of the federal securities laws and the Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by the use of forward-looking terminology such as "outlook," "indicator," "believes," "expects," "potential," "continues," "identified," "may," "will," "could," "should," "seeks," "approximately," "predicts," "intends," "plans," "estimates," "anticipates," "confident," "conviction" or other similar words or the negatives thereof. These may include financial estimates and their underlying assumptions, statements about plans, objectives, intentions, and expectations with respect to positioning, including the impact of macroeconomic trends and market forces, future operations, repurchases, acquisitions, future performance and statements regarding identified but not yet closed acquisitions. Such forward-looking statements are inherently subject to various risks and uncertainties. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in such statements. We believe these factors include but are not limited to those described under the section entitled "Risk Factors" in BREIT's prospectus and annual report for the most recent fiscal year, and any such updated factors included in

BREIT's periodic filings with the SEC, which are accessible on the SEC's website at www.sec.gov. These factors should not be construed as exhaustive and should be read in conjunction with the other cautionary statements that are included in this document (or BREIT's public filings). Except as otherwise required by federal securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future developments or otherwise.

Past performance does not predict future returns. Actual results may vary. Diversification does not assure a profit or protect against loss in a declining market. Alternative investments involve complex tax structures, tax inefficient investing, and delays in distributing important tax information. Individual funds have specific risks related to their investment programs that will vary from fund to fund. Investors should consult their own tax and legal advisors as Dealers generally do not provide tax or legal advice. REITs are generally not taxed at the corporate level to the extent they distribute all of their taxable income in the form of dividends. Ordinary income dividends are taxed at individual tax rates and distributions may be subject to state tax. Each investor's tax considerations are different and consulting a tax advisor is recommended. Any of the data provided herein should not be construed as investment, tax, accounting or legal advice. Interests in alternative investment products are distributed by the applicable Dealer and (1) are not FDIC-insured, (2) are not deposits or other obligations of such Dealer or any of its affiliates, and (3) are not guaranteed by such Dealer and its affiliates. Each Dealer is a registered broker-dealer, not a bank.

Blackstone Proprietary Data. Certain information and data provided herein is based on Blackstone proprietary knowledge and data. Portfolio companies may provide proprietary market data to Blackstone, including about local market supply and demand conditions, current market rents and operating expenses, capital expenditures, and valuations for multiple assets. Such proprietary market data is used by Blackstone to evaluate market trends as well as to underwrite potential and existing investments. While Blackstone currently believes that such information is reliable for purposes used herein, it is subject to change, and reflects Blackstone's opinion as to whether the amount, nature and quality of the data is sufficient for the applicable conclusion, and no representations are made as to the accuracy or completeness thereof.

In Blackstone's opinion, the logos selected were generally the most applicable examples of the given thesis, theme or trend discussed on the relevant slide(s). All rights to the trademarks and/or logos presented herein belong to their respective owners and Blackstone's use hereof does not imply an affiliation with, or endorsement by, the owners of these logos.

NAV Calculation and Reconciliation. This material contains references to our net asset value ("NAV") and NAV based calculations, which involve significant professional judgment. Our NAV is generally equal to the fair value of our assets less outstanding liabilities, calculated in accordance with our valuation guidelines. The calculated value of our assets and liabilities may differ from our actual realizable value or future value which would affect the NAV as well as any returns derived from that NAV, and ultimately the value of your investment. As return information is calculated based on NAV, return information presented will be impacted should the assumptions on which NAV was determined prove to be incorrect. NAV is not a measure used under generally accepted accounting principles ("GAAP") and will likely differ from the GAAP value of our equity reflected in our financial statements. As of September 30, 2024,

our total equity under GAAP, excluding non-controlling third-party JV interests, was \$30.8 billion and our NAV was \$55.2 billion. As of September 30, 2024, our NAV per share was \$13.93, \$13.71, \$13.61 and \$13.94 for Class S, Class T, Class D and Class I shares, respectively, and GAAP equity per share/unit was \$7.75. GAAP equity accounts for net income as calculated under GAAP, and we have incurred \$1.3 billion in net losses, excluding net losses attributable to non-controlling interests in third-party JV interests, for the nine months ended September 30, 2024. Our net income (loss) as calculated under GAAP and a reconciliation of our GAAP equity, excluding non-controlling third-party JV interests, to our NAV are provided in our annual and interim financial statements. As of September 30, 2024, 100% of inception to date distributions were funded from cash flows from operations. For further information, please refer to "Net Asset Value Calculation and Valuation Guidelines" in BREIT's prospectus, which describes our valuation process and the independent third parties who assist us.

Sustainability. Sustainability-related initiatives ("Sustainability initiatives") described in these materials related to Blackstone's portfolio, portfolio companies, and investments (collectively, "portfolio companies") are aspirational and not guarantees or promises that all or any such initiatives will be achieved. Statements about sustainability initiatives or practices related to portfolio companies do not apply in every instance and depend on factors including, but not limited to, the relevance or implementation status of an sustainability initiative to or within the portfolio company, the nature and/or extent of investment in, ownership of, control or influence exercised by Blackstone with respect to the portfolio company, and other factors as determined by investment teams, corporate groups, asset management teams, portfolio operations teams, companies, investments, and/or businesses on a case-by-case basis. In particular, the sustainability initiatives or practices described in these materials are less applicable to or not implemented at all with respect to Blackstone's public markets investing businesses, specifically, Credit and Insurance, Multi-Asset Investing (BXMA) and Harvest. In addition, Blackstone will not pursue sustainability initiatives for every portfolio company. Where Blackstone pursues sustainability initiatives for portfolio companies, there is no guarantee that Blackstone will successfully create positive sustainability results, enhance long-term shareholder value and/or achieve financial returns. There can be no assurance that any of the sustainability initiatives described in these materials will exist in the future, will be completed as expected or at all, or will apply to or be implemented uniformly across Blackstone business units or across all portfolio companies within a particular Blackstone business unit. Blackstone may select or reject portfolio companies or investments on the basis of sustainability-related investment risks, consistent with Blackstone's objectives to seek to maximize risk adjusted returns, and this may cause Blackstone's funds and/or portfolio companies to perform differently relative to other sponsors' funds and/or portfolio companies that do not consider sustainability-related investment risks and factors at all or that evaluate sustainability-related investment risks and factors in a different manner. Any selected investment examples, case studies, and/or transaction summaries presented or referred to in these materials are provided for illustrative purposes only and should not be viewed as representative of the present or future success of sustainability initiatives implemented by Blackstone or its portfolio companies or of a given type of sustainability initiatives generally. There can be no assurance that Blackstone's investment objectives for any fund will be achieved or that its investment programs will be successful. There can be no assurance that sustainability initiatives will continue or be successful. Past performance is not a guarantee of future results and does not predict future returns. With respect to references within this Material to "material" sustainability factors or considerations, for the purposes of this Material, "material" represents those sustainability factors or considerations that Blackstone determines have - or have the potential to have - a material impact on an investment's going-forward ability to create, preserve or erode economic value for the firm and its

shareholders. The word "material" as used in such context should not necessarily be equated to or taken as a representation about the "materiality" of such sustainability factors under the US federal securities laws, the EU SFDR, or any similar legal or regulatory regime globally. While Blackstone believes sustainability factors can enhance long term value, Blackstone does not pursue an sustainability-based investment strategy or limit its investments to those that meet specific sustainability criteria or standards, except with respect to products or strategies that are explicitly designated as doing so in their Offering Documents or other applicable governing documents. Any such sustainability factors do not qualify Blackstone's objectives to seek to maximize risk adjusted returns. Some, or all, of the sustainability initiatives described in these materials may not apply to BREIT's investments and none are binding aspects of the management of BREIT or its assets. BREIT does not promote environmental or social characteristics, nor does it have sustainable investments as its objective. Blackstone Real Estate may review this position from time to time. A decision to invest should take into account the objectives and characteristics of BREIT as set out in more detail in its prospectus, which can be accessed at www.breit.com/prospectus.

Sustainability-Related Ratings, Awards, or Scores. Any sustainability-related ratings, awards, honors, scores, or other rankings ("Sustainability Ratings") referred to herein are provided solely for informational purposes and are not intended to be, nor should they be construed or relied upon as, any indication of future ratings, performance, commitment or other future activity. Sustainability Ratings may, in some cases, be based on external assessments, subjective criteria or a limited universe of participants. Unless otherwise stated, Sustainability Ratings should not be considered representative of Blackstone activities, investments or investments of a given type or a promoted feature of any product (or otherwise used to inform a decision to invest).

Property Sector and Region Concentration. "Property Sector" weighting is measured as the asset value of real estate investments for each sector category divided by the asset value of all of BREIT's real estate investments, excluding the value of any third-party interests in such real estate investments. Rental housing includes the following subsectors: multifamily (21%, including senior housing, which accounts for <1%), student housing (10%), single family rental housing (9%, including manufactured housing, which accounts for 1%) and affordable housing (9%). Please see the prospectus for more information on BREIT's investments. "Region Concentration" represents regions as defined by the National Council of Real Estate Investment Fiduciaries ("NCREIF") and the weighting is measured as the asset value of real estate properties for each regional category divided by the asset value of all of BREIT's real estate properties, excluding the value of any third-party interests in such real estate properties. Our portfolio is currently concentrated in certain industries and geographies, and, as a consequence, our aggregate return may be substantially affected by adverse economic or business conditions affecting that particular type of asset or geography.
