Past performance does not predict future returns. Financial data is estimated and unaudited. All figures as of May 31, 2024 unless otherwise noted. Opinions expressed reflect the current opinions of BREIT as of the date appearing in the materials only and are based on BREIT's opinions of the current market environment, which is subject to change. Stockholders, financial professionals and prospective investors should not rely solely upon the information presented when making an investment decision and should review the most recent prospectus, as supplemented, available at www.breit.com. Additionally, BREIT continuously updates its materials. Please refer to www.breit.com/literature to ensure you are reviewing the latest versions of these materials as information presented herein is subject to change and may materially differ from prior iterations. Certain information contained in the materials discusses general market activity, industry or sector trends, or other broad-based economic, market or political conditions and should not be construed as research or investment advice.

Blackstone Proprietary Data. Certain information and data provided herein is based on Blackstone proprietary knowledge and data. Portfolio companies may provide proprietary market data to Blackstone, including about local market supply and demand conditions, current market rents and operating expenses, capital expenditures, and valuations for multiple assets. Such proprietary market data is used by Blackstone to evaluate market trends as well as to underwrite potential and existing investments. While Blackstone currently believes that such information is reliable for purposes used herein, it is subject to change, and reflects Blackstone's opinion as to whether the amount, nature and quality of the data is sufficient for the applicable conclusion, and no representations are made as to the accuracy or completeness thereof.

NAV Calculation and Reconciliation. This material contains references to our net asset value ("NAV") and NAV based calculations, which involve significant professional judgment. Our NAV is generally equal to the fair value of our assets less outstanding liabilities, calculated in accordance with our valuation guidelines. The calculated value of our assets and liabilities may differ from our actual realizable value or future value which would affect the NAV as well as any returns derived from that NAV, and ultimately the value of your investment. As return information is calculated based on NAV, return information presented will be impacted should the assumptions on which NAV was determined prove to be incorrect. NAV is not a measure used under generally accepted accounting principles ("GAAP") and will likely differ from the GAAP value of our equity reflected in our financial statements. As of March 31, 2024, our total equity under GAAP, excluding non-controlling third-party JV interests, was \$36.3 billion and our NAV was \$59.3 billion. As of March 31, 2024, our NAV per share was \$14.19, \$13.86, \$14.18 and \$13.96 for Class I, Class D, Class S and Class T shares, respectively, and GAAP equity per share/unit was \$8.67. GAAP equity accounts for net income as calculated under GAAP, and we have incurred \$138.4 million in net losses, excluding net losses attributable to non-controlling interests in third-party JV interests, for the three months ended March 31, 2024. Our net income (loss) as calculated under GAAP and a reconciliation of our GAAP equity, excluding non-controlling third-party JV interests, to our NAV are provided in our annual and interim financial statements. As of March 31, 2024, 100% of inception to date distributions were funded from cash flows from operations. For further information, please refer to "Net Asset Value Calculation and Valuation Guidelines" in BREIT's prospectus, which describes our valuation process and the independent third parties who assist us.

Property Sector and Region Concentration. "Property Sector" weighting is measured as the asset value of real estate investments for each sector category divided by the asset value of all real estate investments, excluding the value of any third-party interests in such real

estate investments. Rental housing includes the following subsectors: multifamily (24%, including senior housing, which accounts for <1%), student housing (11%), single family rental housing (9%, including manufactured housing, which accounts for 1%) and affordable housing (9%). Please see the prospectus for more information on BREIT's investments. "Region Concentration" represents regions as defined by the National Council of Real Estate Investment Fiduciaries ("NCREIF") and the weighting is measured as the asset value of real estate properties for each regional category divided by the asset value of all real estate properties, excluding the value of any third-party interests in such real estate properties. "Sunbelt" reflects the South and West regions as defined by NCREIF. "Non-U.S." reflects investments in Europe and Canada. Our portfolio is currently concentrated in certain industries and geographies, and, as a consequence, our aggregate return may be substantially affected by adverse economic or business conditions affecting that particular type of asset or geography.

Select Images. The selected images of certain BREIT investments in this presentation are provided for illustrative purposes only, are not representative of all BREIT investments of a given property type and are not representative of BREIT's entire portfolio. It should not be assumed that BREIT's investment in the properties identified and discussed herein were or will be profitable. Please refer to <https://www.breit.com/properties> for a complete list of BREIT's real estate investments (excluding equity in public and private real estate related companies), including BREIT's ownership interest in such investments.

Trends. There can be no assurances that any of the trends described herein will continue or will not reverse. Past events and trends do not imply, predict or guarantee, and are not necessarily indicative of, future events or results.

1. Represents Class I shares. BREIT performance varies by share class. BREIT's May month to date ("MTD") net returns were as follows: Class I shares: 0.1%; Class D shares (no sales load): 0.1%; Class D shares (with sales load): -1.4%; Class S shares (no sales load): 0.0%; Class S shares (with sales load): -3.4%; Class T shares (no sales load): 0.0%; Class T shares (with sales load): -3.4%. Year to date ("YTD") net returns for all share classes were as follows: Class I shares: 2.3%; Class D shares (no sales load): 2.2%; Class D shares (with sales load): 0.7%; Class S shares (no sales load): 1.9%; Class S shares (with sales load): -1.5%; Class T shares (no sales load): 1.9%; and Class T shares (with sales load): -1.5%. Inception to date ("ITD") net returns for all share classes were as follows: Class I shares: 10.3%; Class D shares (no sales load): 10.1%; Class D shares (with sales load): 9.9%; Class S shares (no sales load): 9.3%; Class S shares (with sales load): 8.8%; Class T shares (no sales load): 9.5%; and Class T shares (with sales load): 9.0%. Please refer to BREIT's Fact Card available at www.breit.com for current monthly performance information. Returns listed as (with sales load) assume payment of the full upfront sales charge at initial subscription (1.5% for Class D shares; 3.5% for Class S and Class T shares). The sales charge for Class D shares became effective May 1, 2018. Class D, Class S and Class T shares listed as (no sales load) exclude upfront selling commissions and dealer manager fees. Returns shown reflect the percent change in the NAV per share from the beginning of the applicable period, plus the amount of any distribution per share declared in the period. Return information is not a measure used under generally accepted accounting principles ("GAAP"). BREIT has incurred \$138.4 million in net losses, excluding net losses attributable to non-controlling interests in third-party JV interests, for the three months ended March 31, 2024. This amount largely reflects the expense of real estate depreciation and amortization in accordance with GAAP. Additional information about our net income (loss) as calculated under GAAP is included in our annual and interim financial statements. **All returns shown assume reinvestment of distributions pursuant to BREIT's distribution reinvestment plan, are derived from unaudited financial information, and are net of all BREIT expenses, including general and administrative**

Notes (Cont'd)

1. (cont'd) **expenses, transaction-related expenses, management fees, performance participation allocation, and share class-specific fees, but exclude the impact of early repurchase deductions on the repurchase of shares that have been outstanding for less than one year.** The inception dates for the Class I, D, S and T shares are January 1, 2017, May 1, 2017, January 1, 2017 and June 1, 2017, respectively. **The returns have been prepared using unaudited data and valuations of the underlying investments in BREIT's portfolio, which are estimates of fair value and form the basis for BREIT's NAV. Valuations based upon unaudited reports from the underlying investments may be subject to later adjustments, may not correspond to realized value and may not accurately reflect the price at which assets could be liquidated.** As return information is calculated based on NAV, return information presented will be impacted should the assumptions on which NAV was determined prove to be incorrect. **Past performance does not predict future returns.** Returns for periods of less than one year are not annualized. ITD returns are annualized consistent with the IPA Practice Guideline 2018. For more information, please refer to "NAV Calculation and Reconciliation" above.
2. CPI reflects U.S. Bureau of Labor Statistics data as of May 31, 2024 and represents the Consumer Price Index, which measures year-over-year changes in the prices paid by all urban consumers for a basket of goods and services consisting of all items in U.S. city average, not seasonally adjusted. "2022 Peak" reflects U.S. Bureau of Labor Statistics data as of June 30, 2022.
3. Green Street Advisors. Lower borrowing spreads reflects comparison between CMBS issuance transaction pricing of 164 basis points on February 24, 2024 and 295 basis points on August 4, 2022. There can be no assurance that borrowing spreads will continue to decline and changes in these measures may have a negative impact on our performance.
4. U.S. Census Bureau, as of April 30, 2024. Represents decline in seasonally adjusted annualized rate of U.S. new privately owned multifamily starts from 2022 peak of the trailing three-month period ended November 30, 2022 to the trailing three-month period ended April 30, 2024. Privately owned multifamily starts are distinct from U.S. Census permits and completions figures and total housing starts (which include both single family and multifamily), which may differ in volume over a given period. **As of May 31, 2024, the multifamily (including senior housing) and affordable housing sectors accounted for 23% and 8% of BREIT's real estate asset value, respectively.**
5. CoStar, as of March 31, 2024. Represents a 76% decline in new construction starts in the industrial sector from 2022 peak of the quarter ended September 30, 2022 to the quarter ended March 31, 2024. **As of May 31, 2024, the industrial sector accounted for 25% of BREIT's real estate asset value.**
6. Rental housing includes the following subsectors as a percent of real estate asset value: multifamily (23%, including senior housing, which accounts for <1%), student housing (11%), single family rental housing (10%, including manufactured housing, which accounts for 1%) and affordable housing (8%). As of May 31, 2024, the student housing (11%), data centers (10%), industrial (25%) and affordable housing (8%) sectors accounted for 54% of BREIT's real estate asset value.
7. "Fast-growing" reflects comparison between the South and West regions ("Sunbelt") versus the rest of the United States as defined by NCREIF. Population growth reflects U.S. Bureau of Economic Analysis, as of June 30, 2023. Represents 5-year compound annual growth rate of population from mid-quarter Q1 2018 to mid-quarter Q1 2023. While BREIT generally seeks to acquire real estate properties located in growth markets, certain properties may not be located in such markets. Although a market may be a growth market as of the date of the publication of this material, demographics and trends may change and investors are cautioned on relying upon the data presented as there is no guarantee that historical trends will continue or that BREIT could benefit from such trends. See "Important Disclosure Information-Property Sector and Region Concentration".
8. Reflects total cost for committed development projects as of May 1,

2024, at 100% ownership. Reflects signed leases. There can be no assurance that these leases will commence on their current expected terms, or at all, and this information should not be considered an indication of future performance.

9. BREIT made an initial \$240M exchangeable preferred equity investment in Tricon in 2020 and is maintaining its ownership stake.

SUMMARY OF RISK FACTORS

BREIT is a non-listed REIT that invests primarily in stabilized income-generating commercial real estate investments across asset classes in the United States ("U.S.") and, to a lesser extent, real estate debt investments, with a focus on current income. We invest to a lesser extent in countries outside of the U.S. This investment involves a high degree of risk. You should purchase these securities only if you can afford the complete loss of your investment. You should read the prospectus carefully for a description of the risks associated with an investment in BREIT. This material is neither an offer to sell nor a solicitation of an offer to buy securities. These risks include, but are not limited to, the following:

- Since there is no public trading market for shares of our common stock, repurchase of shares by us is generally the only way to dispose of your shares. Our share repurchase plan, which is approved and administered by our board of directors, provides our stockholders with the opportunity to request that we repurchase their shares on a monthly basis, but we are not obligated to repurchase any shares, and our board of directors may determine to repurchase only some, or even none, of the shares that have been requested to be repurchased in any particular month in its discretion. In addition, repurchases will be subject to available liquidity and other significant restrictions, including repurchase limitations that have in the past been, and may in the future be, exceeded, resulting in our repurchase of shares on a pro rata basis. Further, our board of directors has in the past made exceptions to the limitations in our share repurchase plan and may in the future, in certain circumstances, make exceptions to such repurchase limitations (or repurchase fewer shares than such repurchase limitations), or modify or suspend our share repurchase plan if, in its reasonable judgment, it deems such action to be in our best interest and the best interest of our stockholders, such as when repurchase requests would place an undue burden on our liquidity, adversely affect our operations or impose an adverse impact on us that would outweigh the benefit of repurchasing shares submitted for repurchase. Our board of directors cannot terminate our share repurchase plan absent a liquidity event which results in our stockholders receiving cash or securities listed on a national securities exchange or where otherwise required by law. As a result, our shares should be considered as having only limited liquidity and at times may be illiquid.
- Distributions are not guaranteed and may be funded from sources other than cash flow from operations, including, without limitation, borrowings, the sale of our assets, repayments of our real estate debt investments, return of capital or offering proceeds, and advances or the deferral of fees and expenses. We have no limits on the amounts we may fund from such sources.
- The purchase and repurchase price for shares of our common stock are generally based on our prior month's NAV and are not based on any public trading market. While there will be annual appraisals of our properties performed by independent third-party appraisal firms, the valuation of properties is inherently subjective and our NAV may not accurately reflect the actual price at which our properties could be liquidated on any given day.

Important Disclosure Information

- We are dependent on BX REIT Advisors L.L.C. (the "Adviser") to conduct our operations, as well as the persons and firms the Adviser retains to provide services on our behalf. The Adviser will face conflicts of interest as a result of, among other things, the allocation of investment opportunities among us and Other Blackstone Accounts (as defined in BREIT's prospectus), the allocation of time of its investment professionals and the substantial fees that we will pay to the Adviser.
- Principal and interest payments on any of our outstanding borrowings will reduce the amount of funds available for distribution or investment in additional real estate assets.
- There are limits on the ownership and transferability of our shares.
- We do not own the Blackstone name, but we are permitted to use it as part of our corporate name pursuant to a trademark license agreement with an affiliate of Blackstone Inc. ("Blackstone"). Use of the name by other parties or the termination of our trademark license agreement may harm our business.
- We intend to continue to qualify as a REIT for U.S. federal income tax purposes. However, if we fail to qualify as a REIT and no relief provisions apply, our NAV and cash available for distribution to our stockholders could materially decrease.
- The acquisition of investment properties may be financed in substantial part by borrowing, which increases our exposure to loss. The use of leverage involves a high degree of financial risk and will increase the exposure of our investments to adverse economic factors such as rising interest rates, downturns in the economy or deteriorations in the condition of our investments.
- Investing in commercial real estate assets involves certain risks, including but not limited to: tenants' inability to pay rent; increases in interest rates and lack of availability of financing; tenant turnover and vacancies; and changes in supply of or demand for similar properties in a given market.
- Recent concerns about the real estate market, increases in interest rates, rising inflation, energy costs and geopolitical issues have contributed to increased volatility and diminished expectations for the economy and market going forward. Our operating results will be affected by global and national economic and market conditions generally and by the local economic conditions where our properties are located, including changes with respect to rising vacancy rates or decreasing market rental rates; inability to lease space on favorable terms; bankruptcies, financial difficulties or lease defaults by our tenants, particularly for our tenants with net leases for large properties; rising inflation, increases in interest rates and supply chain disruptions; market volatility and changes in government rules, regulations and fiscal policies, such as property taxes, zoning laws, limitations on rental rates, and compliance costs with respect to environmental laws.
- Our portfolio is currently concentrated in certain industries and geographies, and, as a consequence, our aggregate return may be substantially affected by adverse economic or business conditions affecting that particular type of asset or geography.
- Competition for investment opportunities may reduce our profitability and the return on your investment.
- Local, regional, or global events such as war (e.g., Russia/Ukraine), acts of terrorism, public health issues like pandemics or epidemics (e.g., COVID-19), recessions, or other economic, political and global macro factors and events could lead to a substantial economic downturn or recession in the U.S. and global economies and have a significant impact on BREIT and its investments. The recovery from such downturns is uncertain and may last for an extended period of time or result in significant volatility, and many of the risks discussed herein associated with an investment in BREIT may be increased.

The properties, sectors and geographies referenced herein do not represent all BREIT investments. It should not be assumed that BREIT's

investment in the properties identified and discussed herein were or will be profitable. Please refer to <https://www.breit.com/properties> for a complete list of real estate investments (excluding equity in public and private real estate related companies). "Real estate investments" include wholly-owned property investments, BREIT's share of property investments held through joint ventures and equity in public and private real estate-related companies.

FORWARD-LOOKING STATEMENT DISCLOSURE

This material contains forward-looking statements within the meaning of the federal securities laws and the Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by the use of forward-looking terminology such as "outlook," "indicator," "believes," "expects," "potential," "continues," "identified," "may," "will," "should," "seeks," "approximately," "predicts," "intends," "plans," "estimates," "anticipates," "confident," "conviction" or other similar words or the negatives thereof. These may include financial estimates and their underlying assumptions, statements about plans, objectives, intentions, and expectations with respect to positioning, including the impact of macroeconomic trends and market forces, future operations, repurchases, acquisitions, future performance and statements regarding identified but not yet closed acquisitions. Such forward-looking statements are inherently subject to various risks and uncertainties. Accordingly, there are or will be important factors that could cause actual outcomes or results to differ materially from those indicated in such statements. We believe these factors include but are not limited to those described under the section entitled "Risk Factors" in BREIT's prospectus and annual report for the most recent fiscal year, and any such updated factors included in BREIT's periodic filings with the SEC, which are accessible on the SEC's website at www.sec.gov. These factors should not be construed as exhaustive and should be

Except as otherwise required by federal securities laws, we undertake no obligation to publicly update or revise any forward-looking statements, whether as a result of new information, future developments or otherwise.

ADDITIONAL IMPORTANT DISCLOSURES

Blackstone Securities Partners L.P. ("BSP") is a broker-dealer whose purpose is to distribute Blackstone managed or affiliated products. BSP provides services to its Blackstone affiliates, not to investors in its funds, strategies or other products. BSP does not make any recommendation regarding, and will not monitor, any investment. As such, when BSP presents an investment strategy or product to an investor, BSP does not collect the information necessary to determine—and BSP does not engage in a determination regarding—whether an investment in the strategy or product is in the best interests of, or is suitable for, the investor. You should exercise your own judgment and/or consult with a professional advisor to determine whether it is advisable for you to invest in any Blackstone strategy or product. Please note that BSP may not provide the kinds of financial services that you might expect from another financial intermediary, such as overseeing any brokerage or similar account. For financial advice relating to an investment in any Blackstone strategy or product, contact your own professional advisor.

This material was not created by any third-party registered broker-dealers or investment advisers who are distributing shares of BREIT (each, a "Dealer"). The Dealers have made no independent verification of the information provided and do not guarantee the accuracy or completeness of such information.

This material is not to be reproduced or distributed to any other persons (other than professional advisors of the investors or prospective investors, as applicable, receiving this material) and is intended solely for the use of the persons to whom it has been delivered.

The sole purpose of this material is to inform, and it in no way is intended to attract any funds or deposits. Investments mentioned may not be appropriate for all investors. Any product discussed herein may be purchased only after an investor has carefully reviewed the prospectus and executed the subscription documents. The Dealers have not considered the actual or desired investment objectives, goals, strategies, guidelines, or factual circumstances of any investor in any fund(s).

Alternative investments often are speculative, typically have higher fees than traditional investments, often include a high degree of risk and are appropriate only for eligible, long-term investors who are willing to forgo liquidity and put capital at risk for an indefinite period of time. They may be highly illiquid and can engage in leverage and other speculative practices that may increase volatility and risk of loss.

Further, opinions expressed herein may differ from the opinions expressed by a Dealer and/or other businesses / affiliates of a Dealer. This is not a "research report" as defined by FINRA Rule 2241 or a "debt research report" as defined by FINRA Rule 2242 and was not prepared by the Research Departments of a Dealer or its affiliates.

Alternative investments involve complex tax structures, tax inefficient investing, and delays in distributing important tax information. Individual funds have specific risks related to their investment programs that will vary from fund to fund. Investors should consult their own tax and legal advisors as Dealers generally do not provide tax or legal advice. REITs are generally not taxed at the corporate level to the extent they distribute all of their taxable income in the form of

dividends. Ordinary income dividends are taxed at individual tax rates and distributions may be subject to state tax. Each investor's tax considerations are different and consulting a tax advisor is recommended. Any of the data provided herein should not be construed as investment, tax, accounting or legal advice.

Interests in alternative investment products are distributed by the applicable Dealer and (1) are not FDIC-insured, (2) are not deposits or other obligations of such Dealer or any of its affiliates, and (3) are not guaranteed by such Dealer and its affiliates. Each Dealer is a registered broker-dealer, not a bank.

Past performance does not predict future returns. Actual results may vary. Diversification does not assure a profit or protect against loss in a declining market.
